REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1955, any article of the following named classes of published works deposited for copyright between January 1, 1951, and January 1, 1952, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.
Contributions to periodicals.
Works of art; models or designs for works of art.
Reproductions of a work of art.
Drawings or plastic works of a scientific or technical character.
Photographs.
Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: $2.50 per issue, $5.00 per year.

PREFACE

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Each annual volume is subdivided to represent the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used in the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for $20 a year.

Each copyright registration listed in the *Catalog* is recorded in a main entry, which includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, the copyright date, the copyright registration number, etc.). Cross-references, and, in some cases, indexes, are provided.

The name of the copyright claimant in each entry is that given in the application for registration. Available information in the records of the Copyright Office relating to subsequent changes of ownership can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in the law for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of Title 17 of the *United States Code*, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) of the regulations of the Copyright Office, published in the Code of Federal Regulations, 1949 Edition, which provides for the deposit of identifying reproductions in lieu of the work itself. To distinguish foreign works, for which two copies have been deposited under section 215 of Title 17 of the *United States Code*, a zero immediately following the class symbol in the registration number has been used.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the *Register of Copyrights*.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

In the following table, the symbols listed represent the materials principally contained in each part; for other materials, including renewals (always designated by the symbol R), which may be included in a particular part and for a more complete statement of contents, the respective "How-to-Use" section should be consulted. In a registration number a zero immediately following the symbol, i. e., AF0, EF0, indicates that two copies of a foreign publication have been deposited with a catalog card and application for registration, under the provisions of section 215 of Title 17 of the *United States Code*.

HOW TO USE THE CATALOG OF COPYRIGHT ENTRIES, PART 1

Books and Pamphlets (Part 1) lists all works registered in Class A, with the exception of greeting cards which are listed in Parts 7–11A; in addition, it includes contributions to periodicals registered in Class B under the symbol B5. Renewal registrations for these classes are listed in a separate section.

The works registered in this class are published literary "writings" (in the copyright sense) and are generally composed entirely or principally of textual matter. As such, they include not only the current output of the book publishing industry of the United States, but also the product of many specialized publishing enterprises. Thus, in addition to novels, biographies, poems, and other works of general interest, they include business reports and yearbooks, trade catalogs and directories, manuals, instruction books, industrial and legal services, and research studies in many fields.

Each registration is described in a main entry. Cross-references and an index to titles are provided to facilitate the location of the main entries. Library of Congress printed cards are available for many of the published works registered for copyright and listed in the *Catalog of Copyright Entries*. Orders for cards, or inquiries regarding them, should be addressed to the Card Division, Library of Congress, Washington 25, D. C.

Part 1 consists of three sections: 1) a list of main entries for works currently registered, arranged alphabetically under the names or titles appearing at the beginning of the entries (interfiled with the main entries are cross-reference entries beginning with other names for which a searcher might look; in each case the cross-reference refers the searcher to the name or title under which the main entry can be found); 2) a similar list of entries for registrations of renewal copyrights; and 3) an alphabetical list of the titles of the works included in the first two sections with reference to the names under which the main entries will be found—except for a) those appearing under title in these sections, b) telephone directories, and c) those works with titles so general as to be meaningless without the name of the author, e. g., Yearbook of the American Bureau of Metals Statistics. Renewal copyrights are distinguished by the letter R following the title.

Each main entry for currently registered works includes, in addition to the name or title used as the heading, the following information descriptive of the work, if available and applicable:

1) Title.
2) Series title, if it appears in the application preceding the title of the work or is necessary to distinguish between two works of the same title.
3) Names of joint authors, editors, translators, etc., if no more than two.
4) Edition statement for editions subsequent to the first, together with information relating to previous publication under a different title.
5) Name of the publisher when the publisher is not also the author or claimant.
6) Collation, consisting of the number of pages, number of volumes, or a descriptive term or phrase.
7) Names of authors given in the application which do not appear elsewhere in the entry.
8) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees.
9) Information contained in the application which relates to the registration of an earlier version of the work.

Information relating specifically to the claim of copyright is preceded by the copyright symbol © and includes:

1) A brief statement of the new matter on which copyright is claimed when this information is given in the application.
2) Name of the copyright claimant.
3) Date of publication as given in the application.
4) Registration number.

An explanatory note is added to the main entry whenever it is necessary to indicate a variation in information which relates to the publication date or the name of the claimant as given in the application and the copy of the work. For ad interim works, the date the work was deposited in the Copyright Office, preceded by the abbreviation, "1c," or "2c," is given following the date of publication in the statement relating to the claim of copyright.

For renewal registrations, the main entry includes, in addition to the heading, the following:

1) Title.
2) Names of the authors of renewable matter.
3) Edition statement.
4) Number of volumes if more than one.
5) Series title.

The information relating specifically to the claim of copyright is preceded by the copyright symbol © and includes the following:

1) A brief statement of the new matter on which the original copyright was claimed, if available in the renewal application or the records of the Copyright Office.
2) Date of original copyright.
3) Original registration number.
4) Renewal registration number.
5) Date of receipt of the renewal application.
6) Name of the renewal claimant followed by an abbreviation in parentheses representing the claimant's statement of the basis of his renewal claim—e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.
